WIZARA YA MALIASILI NA UTALII TANZANIA

Ministry for Foreign  
Affairs of Finland

# Community Based Forest Management

- Ownership of forest resources to community
- Management and conservation responsibilities
- Profit of wood products to community
- Value to the Forest

# Approaches to value chain development

Demand oriented approach

Quality developed as per needs in the market

Higher quantities/volumes

Inclusive approach in the community level

True collaboration with buyers in producer capacity building

- Supporting community as a whole to sell sustainable wood / charcoal
- Community level micro entrepreneur support (forest related businesses), processed wood products, NTFPs
- Engage with national level private sector for working on the value chain from demand side towards the community
